This Journal of Environmental Horticulture article is reproduced with the consent of the Horticultural Research Institute (HRI – www.hriresearch.org), which was established in 1962 as the research and development affiliate of the American Nursery & Landscape Association (ANLA – http://www.anla.org).

HRI’s Mission:

To direct, fund, promote and communicate horticultural research, which increases the quality and value of ornamental plants, improves the productivity and profitability of the nursery and landscape industry, and protects and enhances the environment.

The use of any trade name in this article does not imply an endorsement of the equipment, product or process named, nor any criticism of any similar products that are not mentioned.
Table of Contents

IBA Formulation, Concentration, and Stock Plant Growth Stage Affect Rooting of Stem Cuttings of *Viburnum rufidulum*
Jason J. Griffin ................................................................. 1

Soil pH and Fertility Affect Growth of Leyland Cypress Christmas Trees
L. Eric Hinesley, David Hardy, Brenda Cleveland, and Jeana Myers ......................................................... 4

Butterfly Feeding Preferences of *Lantana camara* Cultivars and *Lantana montevidensis* ‘Weeping Lavender’ in the Landscape and Nectar Characteristics
Laura L. Bruner, Donald J. Eakes, Gary J. Keever, James W. Baier, Celia Stuart Whitman,
Patricia R. Knight, James E. Altland, and Erin M. Silva........................................................................ 9

Monitoring Effective Container Capacity: A Method for Reducing Over-Irrigation in Container Production Systems
Jonathan D. Sammons and Daniel K. Struve ................................................................. 19

Plant Growth Retardants Affect Growth and Flowering of *Achillea × Coronation Gold*
J.R. Kessler, Jr. and G.J. Keever .............................................................................................. 24

Nodulation and Growth of *Alnus nitida* and *Alnus maritima* Inoculated with Species-specific and Nonspecific *Frankia*
James A. Schrader and William R. Graves ........................................................................................ .............. 29

Improving Early Field Growth of Leyland Cypress Liners by Grading and Potting
L. Eric Hinesley and Frank A. Blazich .......................................................................................... 35

Weed Control and Phytotoxicity Following Preemergence Herbicide Applications to Container-grown Herbaceous Plants
James E. Klett, David Staats, Teri Howlett and Matthew Rogoyski ............................................................... 39

Cyclanilide Foliar Applications Induce Greater Lateral Branching than Pruning in Container-Grown Whips
Petra Sternberg and Daniel K. Struve ........................................................................................... 45

Influence of Spray Volume on Spray Deposition and Coverage within Nursery Trees
H. Zhu, R.H. Zondag, R.C. Derksen, M. Reding and C.R. Krause ................................................................. 51

Pest Index: A New Approach to Establishing Thresholds for Pest Management in Woody Landscape Plants
Paul A. Weston................................................................................................................. 58

Notes to Authors .......................................................................................................................... 63

New Plant Introductions — Cultivar Releases ................................................................................. 65
